## Writing

I am a student at an international school in Russia. My tutor has asked me to write an article for the school website on ways students can improve their communicating skills in English.

Speaking in different languages is very important and good for all people. For learning a language, people do many conferences every day. It is a global trouble that many people can speak only in one language. And that's why I want to write an article for school website. Speaking in a new language helps

you make many friends. Also, a new language helps you change your vision of life. I taught a new language with my parents and it helps me to understand many things that I never understood. I agree with Edward Peard who says that with language, you are at home anywhere. I admire people who know 3 languages and more! Many people expand <sup>languages</sup> and still proficiency.
